Privacy Details for Students Principles management courses REAL managers, real experience with a new focus on skills and career, a new edition of this bestselling text can help better prepare their students to enter the job market. Management, The Thirteenth Edition vividly illustrates effective management theories, incorporating the perspectives of real managers. With examples, examples, and hands-on exercises, students will also see management experiences in action, helping them understand how the concepts they are learning actually work in today's dynamic business world. Students will receive practical practice of applying management concepts with MyManagementLab. They will participate in real business situations with modeling, build their management skills by writing and talking about different management scenarios, have access to a video library to help put the concept into perspective, and more. Also available with MyManagementLab. MyManagementLab is an online homework, textbook, and evaluation program designed to work with this text to engage students and improve results. In their structured environment, students practice what they learn, test their understanding, and pursue a personalized learning plan, helps them to better absorb the course material and understand difficult concepts. The basics of organizational behavior use the following methods to facilitate learning: REVISED! The content covered has been significantly increased and include the latest research, relevant discussions and new exhibits on current issues in all aspects of organizational behaviour. New functions! The expansion of integration of contemporary global problems was added to the thematic discussions. New functions! The Consequences for Managers section applies chapter themes together to practical applications for managers. New functions! Global icons point to materials that can be applied specifically to international affairs. Globalization, diversity and ethics are integrated into the material to address issues such as cross-cultural differences that may arise in OB situations. New functions! P.I.A. (Personal Stock Assessment) is a new assessment tool available to students. New functions! The glossary and index were divided into different sections to provide more information and simplify the navigation to the text. Examples are widely used throughout the text to link concepts to real life. Focusing on theory helps readers see the link between OB theories, research, and the implications for practice. Teaches students how to minimize email intrusion and information management. Provides information on job enrichment, bonuses, effective feedback and alternative work mechanisms. Covers the importance of social relationships at work and its attitude to job satisfaction and motivation. Covers new literature on functional conflicts, dysfunctional conflicts and conflict management Sitized workplace issues such as: Safety and Emotion Risk Of Disgust/Self-Definition Theory Management Information Downsizing Brief, Short Format Allows: Significant Flexibility in The Appointment of Supporting Materials and Projects. Balanced coverage of all the necessary topics of organizational behavior. Direct, point text allows students to absorb the information they need without distractions. Interesting, engaging and widely used text has allowed this book to be translated into different languages and enjoyed by students all over the world. Also available with MyManagementLab® MyManagementLab is an online homework, tutorial and score program designed to work with this text to attract students and improve results. In their structured environment, students practice what they learn, test their understanding, and pursue a personalized learning plan that helps them better absorb course material and understand difficult concepts. MyManagementLab allows you to engage your students in course material before, during and after classes with a variety of activities and assessments. BEFORE CLASS Warm-up chapters will help you hold your students accountable for learning key concepts in each chapter before coming to class. The job consists of issues related to topics in the text and gives students the opportunity to access their eTexts to read about the topics in question. Evaluating and analysing the elements in the assignment allows you to see that I know and I don't know. Dynamic learning modules: Not every student learns the same and at the same speed. Now, thanks to advances in adaptive learning technology, you no longer have to teach as if they do. Dynamic learning modules evaluate students' performance and activity in real time and, using data and analytics, personalize content to reinforce concepts that target each student's strengths and weaknesses. You can assign dynamic training modules as homework and get results right in your class. And, because your students are always on the move, dynamic study modules can be accessed from any computer, tablet or smartphone. Improved eText: Participation in lectures is essential to student success, and continuing this interaction outside the classroom is just as important. The new Advanced eText find in MyLab Pearson keeps students engaged in learning in their time, helping them achieve a greater conceptual understanding of the course material. Just as a great instructor brings the course of material to life, Advanced eText brings reading to life - with animation, interactive tutorials, and more. In Advanced eText, the immediate practice suitable for different learning styles is found in just one click. DURING CLASS Learning Catalytics™ is an interactive, student response tool that uses students' smartphones, tablets or laptops to engage them in more challenging tasks and thinking. Now included with MyLab with eText, Learning Catalytics allows you to generate discussion in the classroom, guide your lecture, and promote peer-to-peer learning through real-time analytics. Teachers, you can: Pose various open questions that help your students develop critical thinking skills/Mator answers to find out where students are struggling/Use real-time data to customize your learning strategy and try other ways to engage your students during class/Manage student interaction, automatically grouping students for discussion, teamwork and peer-to-peer learning Business Today: Bring current events alive in your classroom with video that illustrate current and current business concepts. Reporting Dashboard: View, analyze, and report learning results clearly and easily, and get the information you need to keep your students up to date throughout the course with a new report panel. Available through MyLab Gradebook and fully mobile ready-made, the report panel presents student performance data at the class, section, and program level in an accessible, visual manner. AFTER CLASS Branch, Decision Modeling: Making Modeling Decisions their students in the role of manager as they make a number of decisions based on realistic business objectives. Modeling changes and branches based on their solutions, creating different path scenarios. At the end of each simulation, students receive an assessment and a detailed report on the they did with the attendant consequences included. Video Exercises: These eye-catching videos explore a variety of business topics related to the theory students are learning in class. The quiz assesses students' understanding of the concepts covered in each video. Writing Space: The best writers make great students who work better in their courses. Designed to help you develop and appreciate concept excellence and critical thinking, Writing Space offers a single place to create, track and evaluate written assignments, provide resources and share meaningful, personalized feedback with students, quickly and easily. Through automatic evaluation, assisted evaluation, and the creation of your own assignments, you decide your level of engagement in evaluating students. The automatically graded version allows you to assign a letter in large classes without having to evaluate the essay manually. And because of the integration with Turnitin®, Writing Space can check the work of students for inappropriate citation or plagiarism. Quizzes and tests: Pre-built quizzes and tests allow students to quiz without evaluating assignments on their own. Prepare your students for the NEW job market. Focus on skills and careers. Throughout the new edition, the authors emphasize the skills of work that will be needed for both future managers and successful employees. New functions. This is your career head opener to describe the critical work skills that employers are looking for including: managing time, developing your global perspective, finding a mentor, self-awareness, becoming a leader, setting goals, and more. Students can test their understanding of each skill in MyManagementLab. New functions. Future vision is added to each chapter. Based on current trends, this feature gives an idea of what the world of tomorrow might be. Keep the content of the current Updated Content Table: Since everything a manager does involves decision-making, the decision-making chapter now appears in Part I. Part II has been expanded to include chapters on the basics of governance in today's workplace (environment/culture, global, diversity, social responsibility/ethics, and change/innovation). The control chapter now looks like its own part. Entrepreneurial enterprise material now appears in the planning part. New functions. New topics include big data, gamification, learning, twenty percent of the time of innovative initiatives, stretch goals, social media, and wearable technology, and more. Also available with MyManagementLab online is a homework, tutorial and evaluation program that promotes learning in the classroom and beyond. MyManagementLab combines homework, tutorial and evaluation with a dynamic set to measure both individual and class performance. You always know how your students are doing, and can attract each of them to improve performance. New functions! Personal Stock Assessment (PIA): A student is better off learning when they can connect what they are to their personal experience. PIA (Personal Inventory Assessments) is a set of online exercises aimed at promoting self-reflection and student participation, enhancing their ability to connect with concepts taught in management, organizational behavior, and human resources management classes. Assessments are given by teachers, who can then track the completion of the training. Student results include a written explanation along with a graphic display that shows how their results relate to the class as a whole. Teachers will also have access to this graphic representation of results to facilitate discussion in the classroom. PART 1: Introduction 1. Managers in The Job Management History Module 2.
