

How We Build Your Style Profile

***"Instead of trying to pigeonhole you,
Elle works with you to create a unique look.
Every step is carefully explained so you understand
why some things work and others don't".***

Oliver Barlow, Director, SabiStyle Interior Design

Your Style Profile is a tool that helps us make the best wardrobe choices for you. We start with your personality. Using a questionnaire, we find out who you really are. We get a deep understanding of your aspirations, mission and values, and translate them into an effortless and authentic style that perfectly communicates who you are and how you want to be perceived.

We look at your lifestyle - how and where you spend your time. This helps us make decisions about the ratios of the different parts of your wardrobe, what you would get most use of and how to best use your space and resources to create a wardrobe that is functional and practical and which you love to use.

Last but certainly not least, we arrive at your physical attributes and discuss your body type, defining features and how to use lines and colour to create a balanced silhouette, drawing the eye away from your problem areas while highlighting your best features.

You will receive an electronic version of your Style Profile which you can save to your phone, laptop or tablet to refer back to, no matter where you are.
