Tai Sui's role rotates annually, and he commands all other deities except the Jade Emperor. Tai Sui has always been misunderstood as a punisher giving problems such as failures and catastrophic consequences. In fact, Tai Sui is a divine deity responsible for the common affairs of the world for a certain year. Heaven will send Him to take care of failures and catastrophic events and provide protection. Possessing great authority and power, he is a deity whom no one dares to offend for fear of diversity. The bliss, health, luck and unhappiness of man are under the care of Him. This actually serves as a reminder to avoid misdemeanors, take care of health and engage in more benevolent activities and avoid offending Tai Sui, so that misfortune will not strike. He will celebrate the good deeds and misdeeds of the people. The Taoist calendar is organized into a series of twelve earthly branches that rotate according to five elements. The result is a sixty-year cycle. The Taoists believe that sixty Great Commanders are appointed to command every year, and each with its own characteristics, temperaments, abilities, etc., to rule the years of the 60-year cycle. Tai Sui manages 24 divisional cycles and a Chinese 12 two-hour period per day throughout the year. Each Tai Sui will take turns to take on the role of Heavenly Divine on February 4 (early spring) every year. Therefore, it is accepted that Chinese people across the world usually throng Tai Sui whiskey to offer prayers after February 4th (usually within 1 month span) and not before. It is also worth noting that another important date to be remembered is the generalized birthday of all Tai Sui, which is the 19th day of the 7th lunar month. Those who did not pray to Tai Sui at the beginning of the year (the first month of spring) and those who forgot to express their gratitude to the previous Tai Sui at the end of last year can use this day to pay tribute to Tai Sui. Some craftsmen like to attribute Tai Sui to astronomical studies of how the planet Jupiter orbits around one day for every 12 years of Earth's orbit, passing by each horoscope every year. There are magnetic and energy fields for each star object, and since Jupiter is the largest planet in the solar system, it brings a great impact on our planet Earth. The largest planet among the nine planets in our solar system. From the gases and helium. Because it is 11 times larger than the planet Earth as it moved, it creates interfering waves that exert magnetic fields on planet Earth. Astrologers divide his path into twelve sectors, from west to east. Therefore, these masters believe that the basis of Tai Sui is connected with the orbit of Jupiter. From west to east, Jupiter moves counterclockwise, and astronomers have invented an imaginary orbit that moves the other way from east to west to take positions and is called the Star of Sui (Jupiter). So the name of the Great Prince Jupiter appeared. Dou Mu Yuan Jun (Big Dipper Mother of the Northern Stars) If the horoscope turns out to be in conflict with Tai Sui, it means that the energy and magnetic forces of Jupiter's position this year will bring unstable effects for people born in certain years. Because of these unstable forces, people affected will experience bad luck. In Taoism, the custom of praying to Tai Sui for clemency began centuries ago, from the days of the Chou dynasty. Addressing the problems associated with Tai Sui, the treatment of Tai Sui Shar and praying Tai Sui have also been a tradition practiced by the Chinese for centuries.
