Easy elegance roses vs knockout roses

Rose bushes are lovely but have a reputation for being high maintenance. The varieties in this article were chosen because these are hardy rose bushes even the inexperienced gardener can grow successfully. In other words, these are not your grandmother's high maintenance roses! No Styrofoam cones are required. Extensive breeding has created a new generation of cold hardy and disease-resistant varieties that stand out in the landscape. Why roses? you ask? In addition to being nostalgic, romantic, beautiful and often fragrant roses are unique for their bloom time. Unlike many other garden and landscape plants such as peonies and acids, the roses listed here are either everblooming (continuously producing new blooms) or recurring blooming (producing blooms, taking a short break, then blooming again). This makes them perfect for high-power areas where you will have continuous color, such as along the front walk, or near your deck or your terrace where you can enjoy the scent. These are also the top list for low maintenance rose bushes. The hardest Rose Bush Choice to Your Garden Knock Out Roses It's No Wonder Knockout Roses are our best-selling roses. They are disease resistant and cold hardy with a nice rounded habit. The flowers appear in late spring and continue well into autumn. Double flowering varieties have full flowers in either cherry red or bubblegum pink. Carefree Sunshine Roses Yellow flowering roses are notorious for being prone to disease, but Carefree Sunshine is the exception. From the same breeder as Knock Out Rose, Carefree Sunshine is as hardy and disease resistant, but with buttery yellow flowers that don't fade like other yellow varieties. Light Elegance Praises the beauty of roses without all the fuss. Easy Elegance roses are tried and tested in Minnesota for extreme cold hardness and disease resistance. The collection includes Kashmir (pictured above) with its dark velvety red flowers on long stems perfect for cutting and putting in a vase. Even the folit is lovely, deep green with burgundy shades. If fragrance is what you're after, choose Sweet Fragrance. Everblooming with flowers, there is a unique combination of apricot for salmon-pink with a nice perfume. For a low-growing landscape rose, Paint the Town is top notch with a perfectly mounded habit, very glossy disease-resistant foliage and abundant true-red flowers non-stop from spring to frost. Drift Roses As the name suggests, Drift Roses have a low, spreading habit of creating a groundcover of abundant blooms. They are a cross between groundcover and miniature roses with the best properties of both. Sweet Drift has bright pink and fully double flowers that bloom continuously covering a compact 18 high with 30 wide plant. Popcorn Drift is perfectly named as the color goes from yellow to white gives the plant the look smeared popcorn, the flowers eventually become colored with pink. Apricot Drift (pictured above) has apricot colored blooms this age to peach-pink. Buy Hardy Rose Bushes Online Like What You Hear? Easy Elegance® Little Mischief Rose Knockout Roses are everywhere, it's like an SOS rose planting virus. Granted they are an excellent landscape rose of high value for many reasons. Shall we spread them so thick from sea to sea that they become as dull as burning shrubs, nandina, and yew. It is the diseased problem that makes most of us shun the very idea of planting rose bushes in our yards. Who has time for all the fussing and coddling? Knockouts are different than most with their incredible disease resistance. They are heavy flowering, hardy roses that will work in gardens almost everywhere. As all roses are, Knockouts has excellent drought resistant once established. Oh yes, and the infamous pest, feast on rose lion is not too attracted to Knockouts, but all these traits are found in other bush roses. Double Knock Out® Rose Knockout Roses gets tons of press coverage. The plants also have an army of nurseries and box shops sell them too. It's no hype to say that Knockout Roses are all the latest fury. Landscapers and homeowners alike love the whole series of these easy to grow roses. The problem as I see it is that the whole nation will soon have the same 6 bush roses plastered everywhere. Sunny Knockout Rose Too much of a good thing makes it get old really fast. Where's the variety... the spice of life if everywhere you see the same dang roses clogging up the stage? Maybe my mind and eye are too much into the design aspect of landscape and garden. I diss at the idea that every yard should have the same old plants just because they are easy to grow. Maybe it's my reaction to seeing my father plant the same three shrubs on hundreds of properties all my life. His idea of variety is to change the grouping of things. Whatever it is, if you could look past all the marketing hoopla about Knockout Roses you'll see what everyone is missing out on. Let me introduce you to the Easy Elegance Roses. Easy Elegance® Grandma's Blessing Rose Are You Ready For This? They are an even better easy-keeper rose collection than Knockout Better? Tons of black in color and sizes. They are very exciting, super hardy, and absolutely amazing. The biggest difference and clincher in a decision-making dilemma is... Easy Elegance Roses has a 2-year warranty from the breeder. Not from where you bought them, but from the company mass producing them for your kindergarten to buy them and offer them for sale to you. Look, that's what you call sticking your money where your mouth is. Do you think Knockout Roses would refund your money up to 2 years after you buy one and plant it? Heck no they wouldn't. Easy Elegance Roses were bred to be top artists in flower and leaf, even in the frigid north. Easy Elegance Roses is the best bet you'll find. Pim Ling is so sure that anyone can succeed in growing his roses with ease, he offers you these terms and conditions of satisfaction or your money back: Applies to homeowner use only Limit of \$60, or two per household Refund will be in the form of money back (give you 4-6 weeks for treatment) Not valid until after June 15th each year Easy Elegance® will administer the guarantee for all growers. The warranty may be cancelled due to severe weather trends, manufacturer maintenance or poor retail management. The warranty does not cover animal or pest damage. You have 18 lovely Easy Elegance Roses to choose from, not just 7. Easy Elegance 'Centennial' Knockout has only 7 different rose plants and a lot more invested in advertising too. The heaviest petal count with Knockouts is about 25. Easy Elegance has choices that have over 50 petals per rose! Plus they are very hardy own root rose bushes with super pests and disease resistance that flourish all season long. No chemical roses that anyone can grow. Need I say more? Say hello to the two most recent releases in the 2009 Easy Elegance Rose collection. An excellent yellow bush rose to zones 4-9, which mature to 3'-5' high. You have wonderful all season color from highly returning High Voltage Rose. Flowers fully double and fragrant with a petal count 22. It's another brand for Easy Elegance Roses, most of them are fragrant not just a single petal bloom variety. Get your hands on the lovely High Voltage Rose today by following this link. Kashmir Easy Elegance Rose Just look at the magnificent wonder! Kashmir Rose boasts an incredible 50 petal counts per bloom. Looks like a tea rose, and just as wonderful for cutting too. While Kashmir is not fragrant it makes up for that in decadent beauty... from a bush rose! Rich deep red roses 3 wide will be belting out vivid color from May through frost. Kashmir is a high landscape rose maturing to about 5' high. Alas, no online retailer has seen the need to sell this particular variety. Check around your area, there may be a kindergarten that has Kashmir Rose in stock. Let's not be prejudiced the other Easy Elegance Rose choices. Unfortunately, all 18 Easy Elegance Rose choices are not available for ordering online. I found some good choices that are available to buy right away. Here are the other wonderful colors in this valuable group of lovely low maintenance rose bushes. They come in many different plant sizes. Some flowers are larger than others, and petal counts also vary. Bred to deal with a Minnesota winter, you can be sure they are all very cold-hardy roses, and grown on their own root. This makes them really-for-what-you-bought no matter what extremes your winters can bring. Easy Elegance® Sweet Fragrance Easy Elegance® High Voltage Easy Elegance 'Kiss Me' Life After Knockout Roses A Rose of another name would smell so sweet, sure. But when it comes to care and maintenance, not all roses are created equal. Which is why Knockout Roses rose to fame so quickly. They weren't picky (one of people's biggest gripes about the traditional rose), didn't succumb to common diseases like black spot and mildew and they were beautiful. It didn't take long for everyone to catch on, and now you can find them almost anywhere. We're fans of Knockout. They make a beautiful addition to our landscape. But when you're ready for something fresh and distinctive, here are some easy-care rose alternatives to add interest to your landscape: 1) Drift®Roses A cross between full-size groundcover roses and miniatures, with all the disease resistance and winter hardness of groundcover roses and repeat blooms of miniatures. The low-spread habit of operation is perfect for small gardens and combination plantation owners. They light up edges, fill empty spaces and spread fine around established plants. 2) Easy Elegance Roses We love My Girl rose and All The Rage and the fact that they are naturally disease resistant, requires no chemicals and no complicated pruning. These lively roses also come with a 2 year manufacturer warranty. BUY ONLINE 3) David Austin® English Roses A truly eye-catching collection of Pinterest-perfect, old-fashioned flowers. Only David Austin has combined the shapes and scents of old roses with the repeated flowering of modern varieties for easy-to-grow, healthy, picturesque roses. This collection contains a shrub rose for every situation, including large pots and containers, mixed borders, even partial shade. Some powerful varieties can also be trained as repetitive-flowering staple climbers for small arches, columns, walls, fences and espalier.
