© 2020 Arcade Spot Pokemon Adventures Golden Chapter is another Pokemon FireRed hack in PokeCommunity. After the adventures of the red and blue in the first saga, we now join another trainer named Gold. It will be a symbol of Pokemon Gen II, as its starter Totodile. Professor Elm is known as one of the best Pokemon experts in the world. He has a strong and cute Pokemon, one of them is a blue Crocodile Totodile. One day it was suddenly stolen by an unknown coach. What do you think he's going to do? Well, then the thief! Unfortunately, Professor Elm has disappeared in a strange way. Now you're Gold, one of Professor Elm's admirers. You can't stand still and let everything plunge into darkness. Finally, you decided to look about this mystery. You have to get the missing Totodile. Good luck with the project, I'm a huge fan of GSC manga chapters with: The only reason why the cards are still bland is because I haven't changed the inside of the tiles. All exterior tiles have been changed. Cities, routes, cities have become better. When I post more updates for gold, you'll see the cards better. Thank you all for your support. Thank you, keep your good work :) Hacks that I support: Pokemon is life :mudkip:) I agree about the display, it really leaves much to be desired. Taking as an example the map above, it just looks boring and empty. It needs some structure, add some more trees around the edges, a few bushes, the path leading to the central tree, maybe. I love the tiles you use, but the cards don't do them justice. Pokemon Cyan - 2015 - Originally published as chrunch - Original post - I agree about displaying, it really leaves much to be desired.
