PASSION, GOOD, INNOVATION OF THE RIGHT, WHAT TO GET TOUGH JOBS DONE PASSION, THE RIGHT, THE RIGHT, WHAT THE TOUGH JOBS DONE Works with all 1996 and new vehicles that OBDII are compatible (including CAN). Reads and cleans the generic and manufacturer specific diagnostic problem codes (DTC's) and turns off the engine screen. Supports several queries of problem code: common codes, pending codes, and special manufacturer codes. Code definitions appear on the unit screen. - The state of readiness for the emission of OBDII monitors is checked. Determines the state of the lamp malfunction indicator (MIL). - Removes VIN (vehicle identification No) in 2002 and new vehicles such as Mode 9. View live data on your device screen. Easy to use with a single plug-in, very reliable and accurate. - A standalone unit without the need for an additional laptop/computer. Small in size and fits comfortably in the palm of your hand. - Updates your device over the Internet using a USB cable. CD software with more than 10,000 DTC definitions included. There is no need for batteries, as the device is powered by the OBD2 cable. Display: Backlit LCD screen - Operating temperature: 0 to 50 degrees Celsius (32-122 degrees Fahrenheit) - Storage temperature: -20-70 degrees Celsius (-4-158 degrees Fahrenheit) Barcode 93 30514064993 Brand SP Tools Net Weight (kg) 0,32 Product length (mm) 240 product width (mm) 180 Product height (mm) 40 If you don't want to pay for shipping or need as soon as possible, you can pick it up in the store. Just keep in mind, not all stores will have everything in stock. You will be able to see if they do during the checkout process. Free shipping Most products are included in free shipping, however some are excluded as follows: Orders and/or items under \$99. Orders and/or items that are considered cumbersome, large or heavy. Clearance. Orders that include or items that are dangerous goods. Remote areas are excluded from free shipping and you will either be charged shipping at checkout or you can contact before delivery to confirm the shipping cost if necessary. Interstate deliveries. Total Tools reserves the right to change or recall free shipping at any time. Estimated delivery times If you decide to collect in-store you will receive an email to let you know when your item is ready to be collected. If you choose shipping, you will receive an email when the item has been sent to couriers with detailed information so you can track our order. We aim to send all orders within 1-2 business days. In the unusual case of delaying sending your order with you at the earliest opportunity. After sending an order the approximate delivery time is as follows: Metro (excludes Hobart Metro) 1-2 business days Hobart Metro 3-4 business days Regional Areas 3-4 business days Remote areas 6-9 6-9 Days Please note that these delivery times are estimates and are not guaranteed. Returns Changed Your Mind? No worries. You just need to get the product back to the store it was sent from (it's on receipts) within 30 days, unused and in its original packaging, and we'll give you a refund (except for shipping costs). You can read our full refund and exchange policy here (special order items are excluded from this refund policy). OBD2 scanners are supported by a reader. When you buy links on our website, we can earn an affiliate fee. 1 2 3 4 5 6 7 8 9 10 11 12 14 15 16 17 18 Table Content 19 James Martin September 13, 2017 Our site was made possible by displaying online advertisements for our visitors. I spent happy hours playing Bloppy Volley 2 too. It's a good program. I just won my first match 15:17 ! It is unfortunate that replays cannot be stored as or converted to OGM or any other video format. I really like this project!!! :) Big game! just tried it today, a lot of fun ! Not sure yet? With more question-and-answer options, if all of the above solutions don't work for you by default, Volley sets a timeout for setConnectionTimeout and setReadTimeout with RetryPolicy. In my case, volleyball is an exception for large amounts of data from: com.android.volley.toolbox.HurlStack.openConnection. My solution is to create a class that expands HttpStack with my own setReadTimeout () policy. Use it when cue's Query is created as follows: Volley.newRequestue (mContext.getApplicationContext, new MyHurlStack ()) Another way to do this in custom JsonObjectRequest from: @Override bn Public RetryPolicy getRetryPolicy () Source: Android Volleyball Example See Request.setRetryPolicy () and Designer for DefaultRetryPolicy , z JsonObjectRequest myRequest - new JsonObjectRequest (Method.GET, URL, null, the new Response.Listener @Override public void .response.toString()); - @Override public void onErrorResponse (VolleyError error) - Log.d (TAG, Error: - error.getMessage()); myRequest.setRetryPolicy (new DefaultRetryPolicy (MY\_SOCKET\_TIMEOUT\_MS, DefaultRetryPolicy.DEFAULT\_MAX\_RETRIES, DefaultRetryPolicy.DEFAULT\_BACKOFF\_MULT)); To cope with Android Volley Timeout, you need RetryPolicy Volley provides an easy way to implement retryPolicy for your queries. Volley sets the standard socket and ConnectionTimeout up to 5 seconds for all requests. RetryPolicy is the interface where you have to implement your logic to repeat a specific query when you're out. He deals with these three options time out - Identifies a timeout outlet in millis for trying to re-try. Number of retries - Number of attempts to try again. Back Off Multiplier is a multiplier used to determine the exponential time set for Socket for each attempt to re-try. For example, if RetryPolicy is created with these timeout values - 3000ms, the number of retreats - 2, Back Off multiplier - 2.0 Try 1 Repeat: Time and Time (Time - Back from the multiplier); Time no 3000 and 6000 and 9000ms connector time-out-time; Request with a timeout outlet in 9 seconds, sent Try 2 Repeat: Time and Time (Time - Back from the multiplier); Time No 9000 and 18,000 th 27000ms connector time-out - time; A 27-second query sent at the end of the 2lt;JsonObject2 wr'de Волейбол, Wenn immer noch Socket-Timeout TimeoutError , einen Тайм-аутError в Ihrem UI-Fehlerantwort-Handler ausi's. Установите политику повторной попытки в случае исключений SocketTimeout и ConnectionTimeout. Volley делает повторить для вас, если вы указали политику. jsonObjRequest.setRetryPolicy (новый DefaultRetryPolicy (5000, DefaultRetryPolicy.DEFAULT\_MAX\_RETRIES, DefaultRetryPolicy.DEFAULT\_BACKOFF\_MULT)); (Запрос на @param) - @param / публичная пуста &lt;T&gt; &lt;T&gt;: addToRequestue (запрос&lt;T&gt;: запроса) - request.setRetryPolicy (новый DefaultRetryPolicy (MY\_SOCKET\_TIMEOUT\_MS, DefaultRetryPolicy.DEFAULT\_MAX\_RETRIES, DefaultRetryPolicy.DEFAULT\_BACKOFF\_MULT)); getRequestue (j, add (request); - int MY\_SOCKET\_TIMEOUT\_MS'500; stringRequest.setRetryPolicy (новый DefaultRetryPolicy (MY\_SOCKET\_TIMEOUT\_MS, DefaultRetryPolicy.DEFAULT\_MAX\_RETRIES, DefaultRetryPolicy.DEFAULT\_BACKOFF\_MULT)); &lt;T&gt;&lt;T&gt;&lt;T&gt;
