

## Educator Profile:

Maree Daubney  
Richmond

### Level 4 Certificate in Early Childhood Education and Care

Kia ora, my name is Maree and I am an educator with Village Kids ECE based in Richmond. I hold a current First Aid Certificate and Early Childhood certificate Level 4.

I have lived in the Nelson area most of my adult life and I have raised my family in this beautiful part of New Zealand. I am now in my late fifties and have been caring for children in my home for over twenty years. During this time I have had the privilege of working with over sixty families in the region. I look forward to meeting and working with many more families in the near future.

I value strong and trusting relationships with children, and work in partnership with families to embark on children's learning journey together through shared aspirations. I have experience with special needs and will help in any way I can to support your child. We enjoy an active schedule of activities including local playgroups, music groups, trips to the local library and parks. We regularly catch up with our friends with other Educators as we share common interests.

Please contact me to arrange a time to discuss your childcare needs on 021 202 5574.
