Abigail Rosen, nicknamed Aprassionata, was the sexiest, brightest violinist in classical music, but she was also the loneliest and most exploited girl in the world. When a dramatic suicide attempt ruined her violin career, she took aim at the conductor's male heights. Given the opportunity to take on the Ratminster Symphony Orchestra, Abby is thrilled not to realo the RSO is in hock up to the neck and consists of the wildest bunch of musicians ever to kick horns or caress the violin. Abby is finding it increasingly difficult to control her unruly rabble and pretend that she is not insanely attracted to the deadly glamorous horn of the player, Viking O'Neill, who claims to droit de seigneur over every beautiful woman joining the orchestra. And then Rannaldi, an archivist and international maestro, rolls with Machiavelli plans of his own to sabotage the RSO. Effervescent as champagne, Jilly Cooper's novel brings back old favorites like Rupert and Tagzi Campbell-Black, but also ends triumphantly with a frantic orchestral tour of Spain and a high drama international piano competition. The stories tell the stories of mostly British upper-class families, as well as show-jumping and polo crowds, in numerous different sexually charged scenarios, often riddled with adultery, illegitimate children, scandal and sometimes death. They are linked by several recurring characters, mainly by Rupert Campbell-Black, and are set in the fictional English county of Ratshire, so as not to be confused with the real English county of Rutland. See the rut in Wiktionary, a free dictionary. Some of these characters, namely Campbell-Black and the numerous characters associated with it, also occur in Cooper Pandora's novel, although this is not part of the series . citation is necessary. Campbell-Black, Lloyd-Fox, France-Lynch, and other families from the Rutshire Chronicles also appear in Wicked! Tales are set in chronological order; however, they are read as standalone novels. In recent years, her Rutshire Chronicles have come under fire for outdated and problematic depiction of race, homosexuality, gender roles and sexual consent. Triumph ... a boisterous tale of sex and Chopin among Rutshire folk'Tatler'Appassionata - the last and greatest novel by the divine Jilly Cooper's Sunday Times Jilly Cooper is a journalist, author and media superstar. The author of many number one best-selling novels, she lives in Gloucestershire with her rescue racing greyhound, Bluebell. She was awarded honorary doctorates from the universities of Gloucestershire and England to Raskin, and in 2019 won the first Comedy Women in Lifetime Achievement Award. She was appointed CBE in 2018 for services to literature and charity. Back in my late teens and early twenties in the 80s and 90s, my favorite author was Jilly Cooper. Her frolicking sex n' scandal tales of toffs and top totty romp through the British countryside kept me entertained (and enlightened!) for hours, so when they all popped up at 99p on Kindle's Daily Deals last week, I couldn't resist snapping 'em up!' Her frolicking sex n' scandal tales of toffs and top totty romp through the British countryside kept me entertained (and enlightened!) for hours, so when they all popped up at 99p on Kindle's Daily Deals last week, I couldn't resist snapping 'em up!' Instead of going for the most famous ones in the first place (Riders, Rivals and Polo), I started with Appassionata, the fifth in the Rupert Campbell-Black series: Unlike my many reads of the first three, I've only read this once or twice before and could only remember the Oirish Viking player and his glorious lion mana hair that shagged his way through all the girls in the orchestra before finally taming Appassionata himself. Will this test of time? Honestly, if it was new I think I'd be tired of all this pretty quickly, but through rupert's serial studs and all the adorable adorable Sweet gay Marcus, and the swaggering sex on the feet of the Vikings, I loved it for off, tongue in cheek, downright silly, bonkbusting a little brain candy this. 4 stars, both delighted, Viking-loving, twenty-something; 4 stars as nostalgic, Viking-loving, forty-something. ... more JILLY COOPER calls Appassionata her sex and Chopin romance; especially a terrible pun, given that there is very little piano poet and hardly a cacophony of the cash register in his, 600-plus pages. It is, however, set in the world of classical music and therefore required careful research by Ms Cooper - research that, as she claims in her confessions, included touring Spain in the company of the Royal Scottish National Orchestra, touring the south of England with the Bournemouth Symphony and asking professional musicians of various shades questions, how could you bonk a little woman on glockenspiel? Going through Appassionata, I have my own question. Why do people read Jilly Cooper? What's more, why - without orders to do this armed thug - people buy, and presumably read, every novel Jilly Cooper writes? Maybe it's her characters. Appassionata is a way of being a concert grosso, with the Rutminster (where else?) Symphony Orchestra - a terrifying ensemble, among whose members can be found a trumpeter named Randy Hamilton, a cellist named Nelly and a pair of basses (a good couple, naturally) called Dirty Harry and El Squeako - providing accompaniment for a quartet of soloists, namely Marcus the gay pianist, namely Marcus the gay pianist who is forced to take over the conduction of jealous madness, and last but surely not least, the Vikings (push, push) the player's horns. (Fast savvy readers will spot right away that Viking is Irish; he speaks onless and disgosst, and he wears boxer shorts covered by Golden Retrievers holding The Irish Times). Alas, the aforementioned characters, without exception, without redemption. The orchestra's musical habits are terrible, its personal scary. Abby's a psychopath. Marcus is a wimp. Flora - well, she's a violinist, darling, said enough, and besides, she has a hideous taste in men, rejecting the blonde, bedenimed Vikings for a series of chubby North of England industrialists. As for the Viking himself, when he's not carving out an international career record, giving free master classes to primary children or playing golden old men in the house of old people, he's bonking every one- thing in sight with indifference that is most unworthy in society after AIDS. Again, shouldn't that be the core of Jilly Cooper's appeal? Bonking? Innocuous erotic entertainment for bored passengers? Well, there's certainly plenty, and all unabashedly forward except for one, strangely shy gay love scene between Marcus and, guess what, a Russian ballet dancer. But here's the curious thing. There is, in Jilly Cooper's sex scenes, a recurring leitmotif: the use of the verb is pleasant, as in another couch, Rodney noticed that his third trumpet is a nice blonde. Now, if it's even remotely erotic, I'm Shostakovich. So if it's not bonking, and it's not the characters, what is Jilly's joy? Not the plot, of course - in this case, a dilapidated affair that begins with a totally inappropriate acceptance in Bogota, wriggles through some tedious subbusiness in which a nasty Italian conductor waves his big stick at a number of inappropriate women, and finally arrives at the theme of Abby and her orchestra somewhere around page 150 that requires the introduction of a whole new bunch of characters (Randy the Trumpeter, etc., as stated above) it must be bad jokes, one or two of which are so horrible that they are almost funny. Like an episode in which several free-boot arts council types, known for their penchant for edifying desserts, get a surprise bomb of a different order when the entire brass section of the Rutminster Symphony makes a moonie on them from the window of a passing trainer. Or when a local amateur Interruption Suite for security alarms, fax, cough, snoring, rustle and a chorus of toilet chains is nominated for the Gramophone Award. These moments of high farce are few and far between in the novel, the pace of which, for all its busy-ness surface, is more Andante ponderoso than Allegro giocoso; for my money, they're not worth bothering the rest. But here's one to celebrate and keep up during a rainy day when you find yourself among the grim gathering of starch front of classical music heads. What, the wife of the sponsor asks innocently the First Horn Of Rutminster Symphony, do you chappies call a female maestro? The mattress is the inevitable answer. Thank God someone got the answer.
