It's ridiculously funny how people are willing to spend hours and hours trying to beat someone else's high score. I have to admit that I'm not very willing to spend even a few bucks just to play games. But, yes, I've been tempted many times, especially when I knew the game was worth the price. Fortunately, there are amazing games on the Android market that are not only fun but free as well. So if you're tired of your boring life or you're looking to get away for a minute, get a load of these highly entertaining and exciting games on the Android Market. Yes, they're all free. Fruit NinjaFruit Ninja is a must-play on any Android smartphone or tablet. Oddly enough, even if the game was released last year, we are still addicted to the game. Fruit Ninja is an action-packed game that will allow you to lose yourself in a shrinking frenzy. Slaughter all these fruits with a napkin finger, and watch as fruit juices are spit out on the screen. Keep in mind though: After hours of slicing fruit and avoiding random bombs, you may end up hurting your fingers. Mission Impossible FREEFirst stuff first - this game has nothing to do with the recent Mission Impossible movie. In Mission Impossible FREE, you play Jack, a secret agent who takes missions from his boss. Bandits, weapons, girls, money, armored vehicles - they are all in the game. 2D-looking gameplay makes controls easy to master, and often, you find yourself trying to cross every level with perfect scores. You can call the Mission Impossible Jackass version of the Android gaming world, so this game can't appeal to some. We love it anyway! Ninja! FreeYoo Ninja is a simple but addictive game that features a ninja who runs across the screen to reach his goal. You can control the movement of the ninja by simply clicking on the screen. Now, this game may seem simple enough, but Yoo Ninja! actually very interesting. You will find yourself addicted to an endless mode where your main goal is to reach the highest score, on an endless course. Story mode in the game is engaged as well, but quite short, and there are no special cut scenes too eagerly awaited. In the beginning, Yoo Ninja! It's very easy, but as the story progresses, you may find yourself tapping your phone like a jackhammer to complete the levels. Oregon Trail: SettlerIf you love games like The Town of Villa and Farm Villa, you will definitely love the Oregon Trail: The Settler. Obviously, Gameloft has put quite a lot of work into this game. The animated details of the game are very clear and cartoonish, just like the city of Ville. The goal is to build your own city with resources at hand. There are several mini-games in the Oregon Trail: The Settler, and, just to spice things up, you'll meet a few historical figures as you make progress with Virtual Colony.iGun zombies : FPS - WeaponaryNever mind a complex name. This game is addictive as hell and graphics are outstanding on the Android platform. Your goal is simple: kill as many zombies as you can without getting your brains eaten. It's simple, isn't it? To praise hordes of rabid zombies and 150 levels the game throws at you, there is a huge arsenal of weapons that you can unlock. Sounds pretty amazing, doesn't it? While its name may seem a little funny at first, iGun zombies: FPS and Weapon is a game you should definitely take seriously. SENONIA 4If you haven't tried out previous versions of Xenonia, you've missed one of the hottest mobile RPG games ever developed. SENONIA 4 is very similar to classic video games such as Final Fantasy and zelda, in which users will travel to the magical world, fighting evil forces. The best thing about senonia is the storyline and gameplay that can be described in one word - addictive. STARDOM: A-LISTThis is a game for a jersey guy or girl inside you. Basically, you will play the role of a wannabe star who is trying to become a A-lister, and, the only way to do so is to flirt, lie, cheat, and fight your way to the top. You start as an E-list actor who dreams of making it into the spotlight. And the only way to get there is to manipulate people. You will spend hours on the meeting site and talking to people and trying to get them to help you reach the top. You'll work your way through movies and TV scenes, lining up for an audition and sometimes poking in a trash can or pigeon for hidden items. Who says a star's life is easy? Draw something FreeThe Android version of Draw Something just as addictive as its Facebook version. And there are many reasons why this game is a chart topper in many countries. The concept of Draw Something is very simple: just draw on the screen of your smartphone or tablet and let other players guess and understand it all. Despite the fact that the game has many drawbacks at the moment, the developers work hard to improve the gameplay. If you have plenty of time to kill, this is the game for you. That's it - our top best exciting free games for Android! Let us know which one is your favorite and if we missed any awesome free Android games! When people think of computer games, what they usually think of popular first-person shooters like Call of Duty or other ilk. Action games are the big sellers in the market, mainly because of their simple, simple control and easy-to-understand backstories. Android may not be the perfect gaming platform, but it has its share of these games. Here's a look at the top ten action games available for Android devices, sure Get The Hearts players pounding and adrenaline pulsates1) Grand Theft Auto Auto A game that has brought the open world of gaming into the mainstream and launched Rockstar Games in the stratosphere, Grand Theft Auto III on Android is fun. The 10th anniversary edition provides all the punch of the original, while updating it all for modern senses. None of these low-polygons count things going on here - updated graphics of how the nature and model of the vehicle were included. It even has HD quality resolution. Combine this with a great storyline and open interaction with the inhabitants of Liberty City, and the result is a game that will tempt you to let you hit people on the street and nest their cars when you are late for meeting.2) Age zombies are monster du jour. Name any gaming platform and it's sure to be a zombie game or two. However, most are depressing survival holidays that go on the side of the horror genre. Well, Age zombies are definitely not one of those games. Playing as Barry Steakfries, players step into time travel command shoes and kill zombies throughout the space-time continuum in a laugh-aloud storyline. Shooting zombies has never been so much fun - shooting zombie dinosaurs being a hundred times more fun than usual. The main drawbacks to this game are that it is short and has problems with the launch on Samsung Galaxy. Halfbrick has definitely delivered the goods with this follow-up monster dash and Fruit Ninja.3) Sleepy JackThe first impression that sleepy Jack delivers in that graphics awesome. Tube shooter, the game pushes its players into the tube and gives them a cemented roller coaster either with the aim of shooting things or to accomplish level goals. As researchers of Jack's psychedelic 3D Dreamscape, it can be a bit overwhelming at first. But simple controls and frenetic gameplay are very helpful in providing a fabulous experience. Forty levels and additional updates also prevented Sleepy Jack from getting really old - maintaining his playback value.4) GrabatronAlien invaders have been a setpiece enemy of video games for years. How about switching this formula around? In Grabatron, players control a UFO as it steals things from humans and animals throughout the landscape. Armed not with the rays of death, but with one retractable claw, it will be quite a challenge. The claw can be used to pick up objects and frame them around like a homemade weapon - a weapon that will be needed because these vile people will be there with their guns and tanks. Packed with over 30 alien kidnapping fun missions, Grabatron is a definite treat for any gamer.5) Windup KnightRunning game is a fairly new genre. Essentially, players control the constantly running nature hoping to avoid their demise. There's no turning back, just going forward. Robot Invader Windup Knight Now the top running game. Usually players There is one button to think about in the running game, but with jump, slash, roll, and other moves, this game takes running game to the next level. Add to that fifty levels of complex gameplay and challenges, this game is definitely something to spend your time on.6) INCPlatformers have been part of video games for a long time, ever since the seminal Super Mario Bros. Simple gameplay mechanics are easy to understand and give big changes. Currently, one of the best platformers on Android is INC. Developed by Orange Pixel, the game has an amazing retro feel; Pixel style graphics, authentic sound and complex levels make this game a work of art. Very easy to get caught, INC is an addictive treat for any fan of the genre.7) The Meteor BlitzMeteor Blitz is definitely one of the must-have games on the platform. Why is this upgrade for venerable asteroids a necessary addition to any gamer's collection? Mainly because this game provides a complete package: sleek visuals, complex gameplay, responsive control and online games. The value of playing the game definitely also adds to these attributes - along with a very cheap price. The game is intense and players will find themselves sweating as the meteors keep coming. For pulse-pounding entertainment, it's pretty hard to beat.8) Sonic CDSega's posterboy, Sonic hedgehog may have lost a lot of its stellar power since its heyday in the 90s, but don't count it yet. The fastest hedgehog ever came on Android, and he brings with it the solid gameplay of his early outputs. Sonic CD was one of the best adventures of a blue-furred hero, and now the player can survive this experience. Updated for Android, it's still that early 90s patina its graphics, but fun shines through. Definitely the keeper for any Sonic.9 fan) MinecraftMinecraft, an indie phenomenon, comes on Android. Once shackled on a desktop PC, the sandbox construction game seems to have been translated into a portable edition of people over at Mojang. For those who are a fan of the construction/adventure gameplay that Minecraft champions, this is the way to bring fun with them while they are on the go. Optimized for tablets and phones, this version of the game is in its alpha stage - which means it will be a bit of a buggy. But for those who have followed Minecraft on PC, this is not a new experience. A new adventure really for those who love this game.10) ShadowgunA is a very beautiful game, third-person shooter Shadowgun delivers Gears of War style gameplay and graphics to the Android platform. Matching visuals can usually be found on consoles, this game is gorgeous. But it's not just another beautiful face - there's a pretty solid action game under all that flash. Smart enemy AI also gives players a challenge that doesn't just roll over and die. This is step up from the current crop and the original franchise for the Android platform itself. Hopefully we'll see more games like this soon. Coming soon. top free offline android games 2020
