## Erica mena book pdf

Erika Mena is a Puerto Rican poet, translator and book artist. They have MFA in poetry from Brown University, and MFA in literary translation from the University of Iowa. Their book Featherbone (Ricochet Editions, 2015) won the Hoffer First Horizons Award 2016. Their translation of the Argentine graphic novel Eternaut by Herbert Esterherst and F. Solano Lopez (Fantagraphics, 2015) won the Eisner Prize 2016. Their artist books are collected extensively. More recently, they created the artist's book Puerto Rico en mi coraz'n, a collection of letterpress printed broadsides of Puerto Rican poets in response to Hurricane Maria, printed in Spanish and English; and Gringo Death Coloring Book by Raquel Salas Rivera with collaborator Mariana Ramos Ortiz. They teach the art of books and poetry at Brown University. Learn more. Erica takes projects as a freelance letterpress printer, book designer, translator (Spanish in English), and editor, as well as training workshops and offering customized instructions. Write for more information. Some people ask me how I can want a woman and a man. Some of them called me greedy, and some called me confused. But I asked, why not have both? Who wouldn't want the best of both worlds? Why should I choose? I love being in the arms of a strong man, but I also love the feeling of soft lips of a woman in the mines. Call me greedy or call me embarrassed, I think of it as a free spirit. I'm going to take you into my world. Ladies do you know that you can use fruit roll windows or pop stones for? Do men you know how to achieve your woman's G-spot? Get lost on my sex date. Feel how I feel when I'm with a man or a woman. Come share your erotic fantasies. Look that made me gasping for air, clawing my nails into some of them back, and my eyes rolling behind my head. Welcome to The Chronicles of Confirmed Bachelorette: Girl Factor, where every page will have you gasping, hurting, moaning, and trembling more! Some people ask me how I can want a woman and a man. Some of them called me greedy, and some called me confused. But I asked, why not have both? Who wouldn't want the best of both worlds? Why should I choose? Welcome to The Chronicles of Confirmed Bachelorette: Girl Factor, where each page will have you gasping for breath, pain, moaning, and trembling shivering More! Start your review Under All This there are very few books that I read and feel are a waste of time and money, books in which I can find almost nothing good ... and this is one of them. I like Eric from the show. Even if it can move away like a little crazy on a show, I know it's just editing... Obviously something she doesn't support, given the grammatical errors and spelling errors sprinkled throughout the book. It doesn't look like anyone read this before it was published. Then there is the content, I will not say that it there are very few books that I read and feel are a waste of time and money, books in which I can find almost nothing good ... and this is one of them. I like Eric from the show. Even if it can move away like a little crazy on a show, I know it's just editing... Obviously something she doesn't support, given the grammatical errors and spelling errors sprinkled throughout the book. It doesn't look like anyone read this before it was published. Then there is content, I will not say that it does not have a difficult life .... she did. And I commend her for the series of betrayals she endured... but constantly blaming dad's questions for every step and just giving details of her abuse to pages and pages, while throwing in one paragraph about how she left the situation shows me that she is more crying for herself than actually writing empowering books of any kind. YOU CAN'T LEARN ANYTHING FROM THIS BOOK. The reason it's so short is because it's funny. I loved her a lot more before reading, now I see the other side of her and wish she had let me stay with what I thought made her crazy and not this garbage. Finally, she continued to try to paint herself as this innocent little thing without the experience of working with men... so scary, blah blah blah. Come on... With the image she painted for herself and grew her fame through plus her potty mouth and overtly sexual nature on the show, how can she try to create this almost virgin image of herself throughout the book? It sounded like a lie or some sort, and that she was just talking to make herself feel good. I don't mind what she did to make money, but she shouldn't act like she's not quite what she is... she's not shy, she's not innocent... she's not a bad person either, but cut shit about that connection to be close to someone. I didn't want to judge her, but she wrote a book that was kind of like asking for that decision... So what's Erica like? Pot mouth sex bomb that she created on the show or an innocent angel that she seems to create because her other persona is losing popularity? She's just an actress, I think... to feed the world what they want. It's not real. As I said, I loved and loved who she was before the book ... This book tried to push someone that it isn't, and I don't want it to be. You don't have to. YOUR TIME... although under 100 pages old, I think you could fill your curiosity and test your patience. (For the record, I usually enjoy the book of reality stars.... Try Brandi Glanville's Drinking and Tweeting, still about sexy ex-model, but inspiring!) ... More Great read! Erica did not tell her story, no one would have known why she was her. She was injured and hurt people hurt people. Great to read! Underneath it are all spicy memoirs that chronicle the life of reality TV star Eric Mena. Known as the outspoken, cheeky and aggressive video of Fox, Erica shares her story in the hope of clearing up her reputation as a bad reality TV girl. By allowing her readers to see the key experiences and relationships that have shaped her into the woman we see today, she hopes that readers will get a better understanding of who she really is under it all. (Note: This book was published in 2013 when Erica was 25 years old). In the introduction she states: Although I have had relationships with other celebrities this book is not intended to expose them or paint them in a negative light. This book is to let you see who I really am and contrary to popular belief, I'm not this crazy, psycho, nut bag that you see on TV. While she states that it does not tell all the books, I believe there are some individuals she has written about that will ask to disagree. The book begins with Erica sharing details of her childhood. However, there is a shift in the middle of the book. It is at this time her stories begin to center around the romantic relationships that have affected her life. These relationships include Rau's father to his son, Maria the ballerina, Draya Michele of Wife Basketball, DJ Envy from radio talk show Breakfast Club, and rich dollars from love and hip-hop. Erica said good, bad and ugly. The story that stuck out to me most was her relationship with DJ Envy. After three years of relationship together she believed he was the love of her life. Only one day to discover that he was married. I believe that this book would be more effective if the author would include its age during each story. Although there were several times she mentioned her age. In general, it has not been able to provide a timeline along with each story, making it difficult to understand when different different Although although would only recommend under it all for die hard Eric Mena fan, I still found it interesting. Erica did what she does best, and that's to give us right without a stalker. ... more yes, you did that I love Erica, and this book just got me a little more in her life she's beautifully strong and powerful I love watching the show Love and Hip Hop - both New York and Atlanta - and I didn't miss the episode - so I was interested in buying the last two books written by two of these stars - Erica and Winter Ramos - The Game - and after reading as I should say that I was totally surprised - these women watching them on the show - I expected winter's book to be more put together - more lady-like - and for Erica to be as I perceived her as - a train wreck! But I was totally wro I love watching the show Love and Hip Hop - both New York and Atlanta - and I didn't miss the episode - so I was interested in buying the last two books written by two of these stars - Erica and Winter Ramos - And after reading both I have to say that I was totally surprised - these women judging them on the show - I was expecting that Winter's book will be more put together - more lady - and for Erica to be how I perceived her - wreck the train! But I was completely wrong! Erica's story explained a lot about her - and even if she didn't make the best choice - and she did a lot of things most good women would never do - we now understand the reasoning behind most of her bad decisions - we can't agree, but now we understand how and why she took the way she went down - on the other hand - Winter seems to be more lady like on the show - more level headed - with limitations and morals - but it's also misleading - she can sound nice and mature - - but the truth is - this girl has and will do everything for a dollar - she has been used and abused by so many men throughout her life - and she seems to be proud of it - at least Erica has and works for her money - Winter's life and lived for other people's achievements and hard work - getting her money just like prostitutes get paid - if you get paid - if you buy a book Winter hoping to read about how bad certain rappers were - or get dirt on rappers - you'll be very disappointed - you'll only find that the only bad person of winter - and she's very, very dirty! Reading Erica's book - you'll find out why she's like her - you'll get a better understanding of the real Erica Mena! Also, I feel Winter is titled her book game - because her full life was a game for her - she ran a game for every person in her life - and now that she no longer has the look or ability to run the game on whom - the game is over for her - that's the main reason for writing the game - so she could cash in - once, riding on (literally) (literally) ... more I came across this book quite by accident, but it was an accident, I'm glad it happened. Contrary to what most people think of Eric on Love and Hip-Hop New York, I've always considered myself rooting for her because she's weak. This woman went through it all and I mean everything I came across on this book completely by accident, but it was an accident, I'm glad it happened. Contrary to what most people think of Eric on Love and Hip-Hop New York, I've always considered myself rooting for her because she's weak. I have to admit, when she first came on the show and immediately got into it with Kimbell, I thought this chick had some serious problems. And after reading her book, I realize how many serious problems she lives. This woman has been through all this, and I mean all of it. Oh, my God, she's only 25 years old, she's lived her whole life in such a short space of time. This book is a short reading, but what its words say impact you with such a blow. What, that's all I can say. That's why I always say you never really know a person. Erica is a man like all of us, but many places artists in that God status that really doesn't deserve to sit on that throne, but doesn't stop most from doing it anyway. Erica has done a lot growing up and I applaud her for her honesty. There were some things I didn't know if I had the balls to say, but it's not the type of book that tells everyone sleaze about the music industry. This book is strictly about Erica and how what happens in her life has affected her and others. I love her and I really enjoyed this book and I pray that she keeps going and doing well in her life. If you love a memoir, it's a pretty decent read for you! Enjoy! ... more this is my first time ever reading Erica's autobiography and I expected The Superhead type to tell all the books; there were several sexapades in the book. As a fan and reader, it gave me a better understanding of where it came from. She has experienced many unfathomable events in her life, and she has been able to rise above the negative to become a stronger person! For this, I give her tremendous respect for being honest and brave with her fans about herself. There were times, while re-this is my first time ever reading Erica's autobiography, and I expected the Superhead type to tell all the books; there were several sexapades in the book. As a fan and reader, it gave me a better understanding of where it came from. She had experienced many unfathomable events in her life, and she was able to rise above the negative to become stronger! For that, I give her tremendous respect for being honest and brave with her her base about himself. There were times reading this book that was hard to go through because it was traumatic. The main point that I took from her book is that no matter where someone comes from or how rude his or her upbringing was, they have the strength and ability to rise above it all to succeed. Also, based on her toxic, failed relationship, it is imperative to get to know the person completely before getting to know him or her. Also, always trust your instinct. If something doesn't feel instinctively right, then 9 times out of 10, it's not right. The only part that I wanted her to touch was the reason for her struggle with Kimbell and the amount of beef that she had with different people such as Lore1, the former Love and Hip Hop cast mate, and Angela Yee, a radio personality. ... More Under it allafter look love and hip hop I became a fan of Eric Mena. I'd like her to work, though sin is a good girl, it was clear to see that Eric loved the rich, but after watching it on TV I decided to get this book to get to know it even more. AND I wasn't disappointed, in this book she shows all the pain and trials she endured to become the woman she had in the day, it inspired me to know that you have to keep pushing on after bad situations, and use them as educational tools. I would recommend this book if you want to know the real Erica, not just the girl you see on love and hip hop. ... More Under All This Erica Mena was good and interest book to read. I enjoyed reading this book. Erica Mena did a good job. When I saw Erica Menu in Love and Hip-Hop, I thought she was crazy, but when I read about her. She's not a bad person, and she's been through her life. My life is like hers because we both ADD. This book almost made me cry because I felt bad about what had happened to her. I learned from her book, it's made to come back to write my own story about my life. This book and author deserve five stars. I look forward to another book from this author. I want to tell Erica Mena, keep your head down and don't worry about you. ... more wow! seeing Eric on TV and her outbursts and nasty relationship, and I thought, what the hell is wrong with this chick? read about her life was an experience and I fully understand it now! I appreciate 5 stars because it takes courage to get the poor out of your life in the book! I wish you the best of luck Erica! It's not an easy thing to come across as an open book, but sometimes we have to make our position clear. In this case, Erica did a great job. Talking about her weaknesses to everyone is not an easy task, however, she did it, and I appreciate it the most. By thang, I feel for her, she is as if a handsome man. My God, I didn't know she was only two years older than me. I thought she was a lot older. I couldn't imagine what a fresh hell she innoces. Keep your head up mom and thank you for sharing was good. You will find out why ms.mena is the way it is. The Great Book finished it in 2days!!! The bad writingher story was interesting sometimes, but it's very hard to concentrate because of poor grammar. Don't worry about wasting your time. It was amazingly good. I learn a lot as to why she acts the way she does erica mena book pdf. erica mena book chronicles of a confirmed bachelorette. erica mena book underneath it all
