If you put some investment in him in th IV, he will deal with a huge one-punch loss to the dragons and it may be enough to take some weaker dragons out! Take advantage of his high damage versus dragons enemy phase of Quick Riposte 3! Check out our builds section to find out more. When Julia is 10, we recommend +Atk IV. It's for the same reasons as above. Julia is mainly an offensive control of dragon units, but because her Spd is very unreliable, it's best to maximize your Atk stat instead. If you prefer a larger substance, go to + Res IV instead. When the enemy initiates the fight, gives Def / Res + 4 during the fight. In the fight against the dragon enemy, disables enemy skills that calculate damage using lower enemy Def or Res and the unit can counterattack regardless of the enemy ra:500:200 We recommend Naga's the evolution of the divine Naga. Julia has to watch dragon units, but many dragon units have adaptive damage that can take advantage of Julia's low Def stat. This upgrade completely neutralizes this weakness and gives it a distant counter effect too! The distant counter extends Julia's reign against dragons beyond the player stage. You can see how this innovation improves Julia's overall viability and usefulness. Take it as soon as possible if it's one of your main units. Weapon Refinery Tier List About Weapon Refinery Julia is a strict magic attacker (range = 2). Therefore, if not for the accounting of Weapon Triangle, the amount of damage he handles is equivalent to his Atk minus the enemy Res stat. Julia tome, Naga is strong against dragon units. It gives Julia a 1.5x damage multiple against these entities. With some investment, it can easily take out colorless, blue and green dragons in one shot. His weapon upgrades and base stats synergize well his role in a strong match-up against dragon units. Naga has access to a special effect. On top of the +4 Def/ Res boost in the enemy phase, it gets immunity to adaptive damage and gets built-in Remote Counter effects. This makes him a nightmare for all magic units, not just dragonstone units, in the enemy phase. This will be discussed in more detail about the refining of our weapon. Julia's base at Atk and Res sit at 17 and 26 respectively. That makes him a great game-up for dragon units when he can both deal with the huge damage to them and take the beating from them. He gets tank workers and tome enemies as well. Play Julia with her strengths in her physical defenses being quite bad for Julia's base, Def and Spd sit at 17 and 26 respectively. It makes physical aftershocks of Julia deadly. Pay close attention to his positioning against physical items that can easily take him out! Be careful of dragon units that have adaptive damage. The best defense against these units is that your team or Julia will take them down first. That way, they wouldn't have a chance to take advantage of Julia's low def. It's a crippling weakness so get your special effect to refine ASAP to neutralize this mistake! Where do you unlock the potential of this hero? My mom and dad... and my brother Julius... They were all as kind as you can imagine. As always, thank you for everything you do. Let me know if there's anything else I can do to help. Seliph, can't you do that? This is, my brother... is the kind of person who could lead the world towards peace. Just like you, clearly. My brother Julius, who was once very kind, became a false devil... Then at the hands of this devil, my mother... And my father... Oh, that's more than anything! See Lv 40 Dialogue My brother Julius and I both inherited special power through our family tree. I... the ability to use the Naga Book. My brother... can take the terrible book of darkness and turn him into the devil of man. Both our fates were made solely because of the pedigree. What if I could succumb to what took my brother—to become your greatest enemy against my will? This idea scares me. But I take my heart into one thing— how have you continued to exist for me. I believe that if that were to happen, one word from you would bring me back to my senses. I'm asking you never to leave my side, so I...
