GTA: Liberty City Stories Adventure Game, funny story, rich gameplay and a huge world of freedom to explore. The main role in the game you can equip props, without attributes, without skills. Tony can ambulance rescue in the game, police and taxi driver.-ApkAward.com In the game, players will receive vehicles, motorcycles, planes and ships and other vehicles. Carriers without classification, without strengthening. The vehicle itself has durability, collision volume and corresponding passengerability. When the player's character is in the vehicle, all attacks will be carried on the vehicle. The game control interface has two common interface and driving interface, a regular interface, players can only walk, you can enter the mission and freedom of attack. Driving interface, players can manipulate vehicles, motorcycles, planes and ships and other vehicles, you are free to shoot in both directions. Under normal circumstances, the player cannot drive a vehicle in a mission. The weather in Villefranche is changing. Foggy, day to day, night, rain, thunder, lightning and so on are common natural phenomena that change every day. Weather on the role of activity, the plot does not affect. In this game, the combat system is a mission mechanism that allows you to fight in missions or fight without tasks. Everyone has the same health value. When a bullet fired from a weapon shoots at the enemy, it deals damage to the enemy. The game has a combat mission, if these tasks begin, that is to determine the beginning of the battle, if the attack on the appropriate enemy or complete the appropriate target, that is to determine the end of the battle. The game's lockout settings make the game more mature with combat, shooting, combat skills and weapons. The game's combat system sets up reasonable, conventional combat, such as shootouts, the use of bunkers to attack the enemy; Use fists, baseball bats and other melee weapons to attack the enemy. Combating the vehicle has always been the main feature of this series of games, players can usually enter the vehicle, the main character in the vehicle, all attacks will be carried on the vehicle. The vehicle can move the enemy can not squeeze the ground to move. Characters in the car are free to fire on both sides, but can not close the fight. In addition to some special vehicles comes with large-caliber machine guns, missiles, other vehicles are not weapons; In addition to some of the system warfare vehicles you can use another weapon, a car war submachine gun, get out of the prop column All the weapons in it. to make it out of control; forced to stop in the corner of other vehicles continue to affect their durability decreased, the last car to win the war vehicle. GTA Mission: The Stories of Liberty City includes many challenges One of the main tasks are optional regional tasks, increasing the game capacity and freedom. Some details before the mission don't seem important, such as whether to go to a gun store to buy weapons before starting with some training, but these details can determine the success or failure of a mission. Although the decision made by the main character is not important for the game, these decisions can also affect the outcome of the task. The main character needs to call tasks for the task, the task is only one of the ways to complete. The task is a fixed complexity, mode, can not choose or change. Although GTA: Liberty City Stories has a long history, the game itself is a pretty good game in terms of freedom, task design, content enrichment and more. Are you a fan of action and adventure? If so, you are in the right place. Grand Theft Auto (GTA): The Liberty City Stories Android version is a popular adventure game. However, the collaboration in which he developed between Rockstar North and Rockstar Leeds. Rockstar Games are publishers. In addition, this game is the ninth instalment in the GTA series. The setting of the game is in the fictional Liberty City. In addition, this game is a prequel to GTA third. Because it's a prequel, so we can have more returning characters from GTA third, like Tony, Salvatore, and many other surfaces. The game has received a lot of positive feedback from viewers and critics as well. This new version brings you gameplay that is full of adventure. In addition, the game has a fun and exciting plot and a massive world in which players are free to explore. Players can equip props of their choice. In addition, players can also have access to many vehicles, such as motorcycles, ships, planes and many other vehicles. The combat system of the game is commendable, where players can have access to all the usual combat activities, such as various shootouts. And they can use bunkers if they want to attack rivals or their enemies, use baseball bats and even fists to attack enemies. READ ALSO: GTA Vice City APK paid for free download with unlimited GTA money: Liberty City Stories APK Details APK requires Android - 4.0 or higher. We can see a lot of appearances in the latest version of Grand Theft Auto third part. However, we will see some noticeable changes in the appearance and lifestyle of these characters. Moreover, they are different from the characters they were in 1998. Although, we will see Frank Vincent, who repeated his role Salvatore from the previous series of games. In the new version of this game, Liberty City Stories APK shows that Leones are the strongest and only mafia family that survives in Liberty City. Tony will protect Salvatore from his rivals before the trial. Salvatore also kidnaps O'Donovan. The reason for the kidnapping is that he wants to prevent the charges against him. So Tony and Salvatore will work together to kill Torini, and they'll save O'Donovan. After this incident, he will demand the protection of his family from the mayor of the city. However, later the secret comes out that Torini worked for his uncle. In addition, his uncle wanted to reduce control of his nephew over the city because he did not pay tribute to him. Finally, after exposing the mystery, they do not accept the uncle as a threat. So Tony and Salvatore get together, and they both control the city. READ ALSO: GTA San Andreas APK Mod - Original download free GTA: Liberty City Stories APK Features After downloading APC Liberty City, you'll enjoy several features. The new game version has impressive and exciting adventure gameplay. The game has beautiful graphics, textures have high resolution, and there is fantastic art of character. The creators of the game made the new version unique and very different from other arrangements, as the game has a new feature of lighting in real time and shadows. What's more, this new feature makes the game more realistic. So there is more fun and excitement in the latest version of the game. Liberty City APK has a new feature in which players can balance the controls in the game. Thus, they will face less difficulty, and the ease of the game makes it exciting and interesting to play. Players can also enjoy another new feature in which they will have the physical support of the controller. Beautiful and wonderful graphics used in this game, to the fore. Because of this kind of illustration and commendable textures, players experience a real and natural experience. So all these new features make the game worth playing. GTA: Liberty City Stories APK Download and install GTA Liberty City Stories Original GTA Liberty City Stories Original APK Download OBB Liberty City Stories Some instructions for installing the game: Turn off mobile data and WiFi before installing the game. You have to turn them on after your game starts to work normally. Once installed, you can launch a new version of the game. Make sure that when you open an app to run a game, it doesn't have to display a notification that says you need to download the data files. Stay tuned for all the latest updates. Grand Theft Auto: Liberty City Stories retains the same features as previous games in the series. But it has a difference: it's the story of Grand Theft Auto III. That is, a game that takes a player to know the past of GTA III, more precisely focused on the mafia, which ended in GTA III after Claude (the main character) finished off her bosses, including the most powerful of them, Salvatore Leone. Only in Grand Theft Auto: Liberty City Stories, a player can know the past of all this. Here most of the influential people of GTA III have nothing in the city, including part of the mafia itself. Thus, the story ends with another retrograde extension of GTA III itself, inheriting even some of its most serious cons. Maybe that's why a lot of people don't approve of the game. There is also an easy version of the game, some features have been removed, such as audio characters, radio and talk in missions. NOTE (Copyright) Don't remove my credits from the game, it may stop working, and if it is published on your channel or website, please leave a link to download redirect to this page, this will be your way to pay me off for free. If I publish another version on top of mine I can file a lawsuit on your website or channel, for those who create fashion, do not delete credits, publish videos more leave credits, if you have doubts, please contact me.
