environment for people to live

FeverCam SME E100

FeverCam SME E100 Fever Screen Systems complete temperature measurements for 1 individual at a time. Ideal for medium volume traffic areas as measurements are automated (requiring no staff) and quick (<1s). Each individual will step up to the FeverCam System to complete the test. The FeverCam System will automatically detect anyone with a fever and alert the security team.

Distancing

Contact Free

Automatically measures temperature and alerts monitoring systems of high temp without dedicated operator to reduce risk of COVID-19 cross infection

Fast

One minute to complete setup, and proceed >20 person temperature measurements every minute.

Accurate

+0.3°C (+/- 0.54°F) temperature error, and support face recognition accuracy > 99.7%. Face recognition features can be integrated into existing access control

SPECIFICATIONS

Thermal Sensor	Short Distance Thermal Sensor
Temperature Accuracy	+/- 0.5°C (+/- 0.9 °F)
Temperature Measurement Distance	0.3 Meter (1feet)
Voice Alert	Yes (Abnormal Temp.)
Optical Visible Image	1080P CMOS Sensor
Monitor	4.3 inch, Touch
Monitor Resolution	480*272
Management Platform	No (Setup through touch GUI)
Appearance	ABS
Water Proof	IP42 (Protected from water spray)
Dimension	TBD (smaller than iPad mini)
Weight	TBD (<300g)
Power input	DC12V/0.5A
Power Consumption	4W
Working Temp.	0~40°C(32~104°F), <95%RH

Specifications are subject to change without notice. For the most up-to-date specs, go to <https://www.veritashealthtech.com/E100>

- No facial recognition for privacy (only temperature will be measured)
- No connectivity for information security (cannot be connected to cloud or external system)
- Ideal for environments for quick temperature scans and no need for data collection/contact tracing.
