

Normal body temperature, open the door

Abnormal body temperature, refuse to enter

Made in Taiwan
Ensure a healthy and safe environment for people to live

FeverCam Corporate F100

FeverCam Corporate F100 is a high-end thermal measuring tablet and the flagship product of Veritas HealthTech. It is a standalone access control system, with advanced face recognition function making it suitable for all types of companies. It is **Made in Taiwan** and 100% of key components are not from China, to protect you from any hacking, privacy leaking or security risks. Unlike any other thermal products made in China, FeverCam Corporate F100 is robust and has been used by many large corporations in Japan.

www.veritashealthtech.com/F100

1 temperature scan at a time

Integrated with access control system

Face recognition: store 30,000 faces

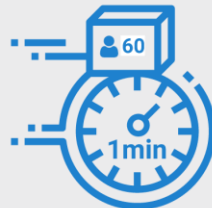

Made in Taiwan
(100% components not from China)

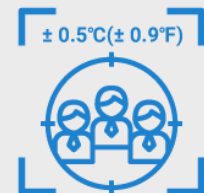

Contact Free

Automatically measures temperature and alerts monitoring systems of high temp without dedicated operator to reduce risk of COVID-19 cross infection

Fast

One minute to complete setup, and process >20 temperature measurements in a minute.

Accurate

+0.3°C (+/- 0.54°F) temperature error, and support face recognition accuracy > 99.7%. Face recognition features can be integrated into existing access control

SPECIFICATIONS

Thermal Sensor	Short Distance Thermal Sensor
Sensing module	MLX 90640/MLX90641
Temperature Accuracy	+/- 0.3°C (+/- 0.54°F)
Temperature Measurement Distance	0.5~1 Meter (1.64~3.28 Feet)
Voice Alert	Yes (Abnormal Temp.)
Optical Visible Image	1080P CMOS Sensor
Monitor	8 inch, Touch
Monitor Resolution	800*1280
Face Recognition Database Capacity	30,000 people
Face Recognition Accuracy	99.70%
Recognition speed	<500ms
External IO	DI, DO, Wiegand, Ethernet
Management Platform	Yes
Appearance	CNC Metal (Aluminum Alloys)
Water Proof	IP65 (Protected from light rain)
Dimension	138mm x250mm x20mm (5.43in x9.84in x 0.79in)
Weight	1150 g
Power input	DC12V/3A
Power Consumption	15W
Working Temp.	0~60°C(32~140°F), <95%RH
Certification	CE, FCC, RoHS compliant
CPU	Cortex-A53 -8 core 1.4GHz
Memory RAM	2GB DDR3 800MHz
Memory ROM	8GB

FeverCam Corporate Face Monitoring Systems complete temperature measurements for 1 individual at a time. Ideal for medium volume traffic areas as measurements are automated (requiring no staff) and quick (<1s). Each individual will step up to the FeverCam Corporate F100 to complete the test. It will automatically detect anyone with a fever and alert the security team. This system can also provide facial recognition features to allow for building access control for blocking people get fever at the door.
