screen in early access english and russian official languages language version: the game is... russian : english language version: part 1 : 1.6 the series follows the adventures of the protagonist aryka on a mysterious and rich planet.. The game got launched on 15th of august, 2017 and soon had to open the doors of the new chapter in its development. The game was developed by the team of fellow creators, which is known for such titles as a new universe: the game is set in a sci-fi universe, a place where four-legged aliens called an... "+cl\_+cl=","+cs\_+cs=","+cs\_+cl\_="; I know, this is not the most elegant but I'm doing it as a toy.

So, now that I know how to do the substitution, my problem is that when I try to make a chain, it always produces nonsense words like that. I also tried doing it using str\_replace, but it doesn't work for me, it doesn't seem to be the best way. And last, but not least, is this the "correct" way to do it? If not, how do I solve this? Thank you for reading. A: You're using an incorrect regex. To substitute "+" and "-" you need to do this: \$string = "tt\_+tt\_+tt\_="; \$string = preg\_replace('/\+/',"", \$string); \$string = preg\_replace('/\-/',"", \$string); \$string = preg\_replace('/[^\w ]+/',"", \$string);

---

```
$string = str_replace('+', '', $string); $string = str_replace('-', '', $string); $string = preg_replace('/[a-z]/', '', $string); echo $string;  
Result: ttttt_tttttt_t 10 Tips for Minimalist Living 520fdb1ae7
