All-Gender Ambulant Toilets

Identified Design Issue

An ambulant toilet on each level of the university building will be designated as 'all-gender'.

Departure from Deemed-to-Satisfy Provisions

Due to the use of the university building and the presence of male, female, and other gender minority groups, the approach has been to provide all-gender ambulant toilets.

The Performance Solution

The solution offers greater flexibility and optimises the number of toilets by accommodating the diverse gender groups using the university building. Additionally, it promotes inclusivity and ensures comfort for all individuals, regardless of their gender identity.

This example is a hypothetical scenario and must not be used for any specific project.

Assessments must be tailored for each project.
