## 循環經濟 Circular Economy

Mil Mill實現的循環經濟理念，將回收紙包飲品盒打成紙漿再造紙品，同時將香港收集的辦公室廢紙運往越南製成廁紙，將廢物變成可再投入市場的資源。

再生紙巾正是循環經濟的例子，能確保我們回收廢紙的出路，穩固回收產業鏈，避免受制於全球廢紙市場的波動，實行可持續發展。

At Mil Mill, we put the concept of circular economy into practice by recycling beverage cartons into pulp to make recycled paper products. We also collect office waste paper in Hong Kong and ship them to Vietnam to make recycled bathroom tissue, turning waste into a resource that can go back into the market.

Recycled tissue is an example of circular economy. It can ensure a demand for the waste paper we have collected, stabilize the recycling chain against volatility in the global waste paper market, and enable sustainable development.

## FSC 認證 FSC Certification

FSC™ 認證是由森林管理委員會(Forest Stewardship Council, FSC)核發的認證，當產品標示有 FSC™ 的認證標章時，就表示該產品的材料是來自於被認可的「良好管理森林」，說明產品的原料來源是可靠的、永續的、被監管的。

FSC™ certification is issued by the Forest Stewardship Council (FSC). A product bearing the FSC™ certification logo is made of materials from recognised "responsibly managed forests". This means that the raw materials used for the product come from reliable, sustainable and regulated sources.

## 產品質素 Product Qualification

MilMill 產品經香港及國際機構認證：含菌量、重金屬及有機物含量均符合嚴格國際標準（例如FDA食品安全測試）（個別產品檢測資料請聯絡本公司索取）。

MilMill 更是首間獲四項ISO認證的本地回收商。

Mil Mill's products are certified by Hong Kong and international organisations to have met stringent international standards (e.g. FDA food safety testing) in terms of bacteria, heavy metals and organic content (please contact us for individual product test information).

Mil Mill is also the first local recycler to have received four ISO certifications.
